

```
using System;
namespace CSharp_Shell
{
    public class program
    {
        void print()
        {
            Console.WriteLine("harshali");
        }
        public static void Main()
        {
            program p=new program();
            p.print();
        }
    }
}
```
