

```
using system;
public class while
{
public static void main()
{
interface i;
    int n;
    Console.WriteLine("Enter A
number");

namespace=Convert.ToInt32(Console.Read
Line());
    for(i=1;i<=namespace;i++)
    {
Console.WriteLine("Teach one,Each
one,Tree one");
    }
Console.ReadLine();
}
}
```
